Compatibility with macOS

11/2/2026

- Please note that we have discontinued our support for any products not listed in these charts.
- We have tested new products with the latest versions as of October 2026.
- Download and use the latest versions of drivers and applications from https://voxamps.com/downloads/ (except for products noted below).
- VOX USB-MIDI Driver is not compatible with macOS 10.15 Catalina or later. USB MIDI function should be used only with Apple standard driver.
  If VOX USB-MIDI Driver is already installed, uninstall it to use Apple standard driver. Please refer to the link on the right. https://voxamps.com/news/macos-catalina-support-for-vox-products/
