

VOX 2ch USB-ASIO Driver

Software details

The VOX 2ch USB-ASIO Driver allows certain VOX Products to be used as an ASIO compatible USB audio interface. With this driver, you can play and record audio with very low latency with an ASIO compatible application.

- Based on 'Standard ASIO 2.1'
- 2 Input, 2 Output
- Sampling Rate: 44.1kHz
- Resolution: 24bit
- Isochronous Transfer/Asynchronous Transfer
- USB Audio Class Specification 1

*This software requires a suitable PC and a USB cable.

System requirements

Windows 7 SP1 - All editions (32bit/64bit)

Windows 8.1 - All editions (32bit/64bit)

- * Intel Core2 Duo, or later, processor is recommended
- * This does not assure functions on all PCs on the above operating systems. 'VOX 2ch Audio Driver' may not work on some PCs.
- * Only compatible with Windows OS
